Available for new missions

Full-stack developer with four live production builds across e-commerce, interactive 3D and creative-media portfolios. I hand-write React, Next.js and vanilla JavaScript instead of stacking drag-and-drop builders, then hold every page to a sub-1.5s load budget and 95+ Lighthouse scores on mid-range Android. Comfortable owning a project end to end: scope, UI design, build, deploy, support.

EXPERIENCE

INDEPENDENT FULL-STACK DEVELOPER — 2025 — NOW
DELHI, INDIA · REMOTE
- Designed and shipped four live production sites, all still online with real traffic.
- Own scope, UI design, React/Three.js build, deployment and 14-day post-launch support.
- Hold every page to a sub-1.5s load budget and 95+ Lighthouse on mid-range Android.
- Wrote the personalised-magazine ordering flow for The Pasha Atelier in typed React state.

CREATIVE DEVELOPER · BRAINCHILD GAMES — 2026
INDIE GAME STUDIO · REMOTE
- Built a mood-filterable game shelf that re-orders cards in place, no page reload.
- Kept the Three.js world at 60fps on mid-range Android by capping DPR and draw calls.
- Added reduced-motion and low-power fallbacks for older hardware.

FULL-STACK BUILD · ARCHIVE N°9 — 2025
LIMITED-EDITION FASHION LABEL · REMOTE
- Vanilla JS product grid, size picker, countdown and cart in 42KB of hand-written JS.
- Cart and edition state persisted in LocalStorage so a refresh never loses an order.
- Keyboard-navigable grid with visible focus states throughout.

DESIGN & BUILD · EDITINGBOX — 2025
VIDEO-EDITING STUDIO · REMOTE
- Muted autoplaying showreel above the fold with an explicit click-to-unmute control.
- Video assets lazy-loaded behind IntersectionObserver to protect first paint.
- Enquiry CTA repeated at three depths with a prefilled project brief.

EDUCATION
SELF-TAUGHT TRACK · DELHI, INDIA

Full-stack web development: four shipped production builds plus continuous work in React, Node and WebGL.
